A big thank you to your family for supporting SNAP!

SNAP - Special Needs And Parents - is an Essex charity that helps families with children and young people who have any special need or disability. Today the children played some games that helped them to understand both physical and mental difficulties. Please find below a game that you can play at home.

To help understand coordination difficulties – take it in turns to put a thick pair of socks on your hands, and put on a shirt with buttons, then try to do up the buttons on the shirt whilst wearing the socks on your hands. This will be difficult to do and will highlight how coordination may be more difficult for some people than others.
